1	Journal of Urban Design 	1469-9664	1357-4809	https://e-resources.perpusnas.go.id:2200/toc/cjud20/current	Taylor & Francis	6 issue(-s) per annual	The Journal of Urban Design provides a new forum to bring together those contributing to this re-emerging discipline and enables researchers, scholars, practitioners and students to explore its many dimensions. The Journal publishes original articles in specialised areas such as urban aesthetics and townscape; urban structure and form; sustainable development; urban history, preservation and conservation; urban regeneration; local and regional identity; design control and guidance; property development; practice and implementation.	Journal of Urban Design is currently indexed and abstracted in CSA Abstracts; Dietrich's Index Philosophicus; EBSCOhost (Academic Search Alumni Edition), Academic Search Complete, Academic Search Elite, Academic Search Premier Academic Source Complete, Academic Source Premier
2	International Journal of Urban Sustainable Development 	1946-3146	1946-3138	https://e-resources.perpusnas.go.id:2200/toc/tjue20/current	Taylor & Francis	3 issue(-s) per annual	The journal also aims to enhance knowledge and understanding of the two-way interactions between urbanisation processes and patterns and environmental changes at the local, regional, and global scales. In addition to mitigation and adaptation concerns, these interactions also include related social and economic issues, such as the impacts of globalisation and financial crises, evidence-based liveability versus utopian, or purely theoretical, planning principles, restoring dignity to the marginalized beyond, but including, the basic principles of participation, environmental justice and sustainable resource utilisation.	CSA - CSA Sustainability Science Abstracts (Cambridge Scientific Abstracts), Core EBSCOhost - Current Abstracts, 1/1/2009- - GreenFILE, 1/1/2009- - TOC Premier (Table of Contents), 1/1/2009- Elsevier BV - GEOBASE
3	Advances in Building Energy Research 	1756-2201	1751-2549	https://e-resources.perpusnas.go.id:2200/toc/taer20/current	Taylor & Francis	2 issue(-s) per annual	Topics covered by ABER include: invaluable thermal comfort in the built environment; advanced materials to improve energy efficiency of buildings; indoor air quality; energy efficient lighting and daylight; visual comfort in the built environment; thermal and air flow studies in the urban environment; passive solar heating of buildings and passive cooling in buildings; energy efficient HVAC systems for buildings; urban energy systems	This Journal is indexed in Scopus

4	Intelligent Buildings International 	1756-6932	1750-8975	https://e-resources.perpusnas.go.id:2200/tc/tibi20/current	Taylor & Francis	4 issue(-s) per annual	Intelligent buildings and cities can be defined by the following three pillars of knowledge: - People: individuals and communities - Innovative Technologies: smart enabling technologies - Sustainability: the design and management of energy, water, waste and pollution	Intelligent Buildings International is abstracted in: Chartered Institute of Building, Construction & Building Abstracts (CBA), CNKI China National Knowledge Infrastructure, EBSCO Databases, Engineering Village, IBSEDEX International Building Services Abstracts, International Civil Engineering Abstracts, SCOPUS, ICONDA, The Institution of Engineering and Technology Inspec Database
5	Building Research & Information 	1466-4321	0961-3218	https://e-resources.perpusnas.go.id:2200/tc/rbri20/current	Taylor & Francis	8 issue(-s) per annual	The scope covers: - People. Motivations and actions of designers, engineers, makers, managers and users of buildings; user satisfaction; universal and inclusive design; education of stakeholders; supply chain capabilities; stakeholder needs; stewardship; building communities; culture. -Product. De-carbonized buildings and sustainable development; mitigation, resilience and adaption to climate change; active building technologies and smart buildings; innovative and non-conventional building materials; healing environments; adaptive re-use, retrofit, disassembly and resource recovery; quality.	Building Research & Information is currently noted in ANBAR; Architectural Publications Index API; ARCOM Construction Management Abstracts; Avery Periodical Index; British Technology Index; Building Management Abstracts; Cambridge Scientific Abstracts; Construction and Building Abstracts
6	Urban History 	1469-8706	0963-9268	http://e-resources.perpusnas.go.id/library.php?id=00032	Cambridge University Press	4 issue(-s) per annual	Urban History occupies a central place in historical scholarship, with an outstanding record of interdisciplinary contributions, and a broad-based and distinguished panel of referees and international advisors. Each issue features wide-ranging research articles covering social, economic, political and cultural aspects of the history of towns and Cities. Urban History is leading the way in academic publishing with its multimedia companions. The companions are refereed and fully linked and provide real depth to research. Online subscribers also gain access to Urban History's comprehensive online bibliography, which contains 34,000 searchable items including books, articles and edited collections.	Cambridge, EBSCO

1	European Planning Studies 	1469-5944	0965-4313	https://e-resources.perpusnas.go.id:2200/toc/ceps20/current	Taylor & Francis	12 issue(-s) per annual	European Planning Studies features articles which focus on the functional dimensions of planning, such as infrastructure, communications, environmental quality, design, cultural, social welfare, recreational, housing, industrial and employment concerns of planning at whatever spatial scale.	European Planning Studies is currently abstracted in: African Urban and Regional Science Index (AURSI); CAB Abstracts; European Access; European Sources Online; Geographical Abstracts: Human Geography; International Bibliography of Book Reviews; International Bibliography of Periodical Literature; International Political Science Abstracts; International Regional Science Review; Sage Public Administration Abstracts; Sage Urban Studies Abstracts; Social Planning/Policy Development Abstracts; Social Science Citation Index and Sociological Abstracts.
2	Regional Studies 	1360-0591	0034-3404	https://e-resources.perpusnas.go.id:2200/toc/cres20/current	Taylor & Francis	12 issue(-s) per annual	Regional Studies is a leading international journal covering the development of theories and concepts, empirical analysis and policy debate in the field of regional studies. The journal publishes original research spanning the economic, social, political and environmental dimensions of urban and regional (subnational) change. The distinctive purpose of Regional Studies is to connect insights across intellectual disciplines in a systematic and grounded way to understand how and why regions and cities evolve	Regional Studies is indexed in AEA; Avery Index to Architectural Periodicals; British Humanities Index; CAB Abstracts; CABI; Centre for Injury Prevention; CREJ Contents of Recent Economics Journals; Contents Pages in Management
3	Sustainable and Resilient Infrastructure 	2378-9697	2378-9689	https://e-resources.perpusnas.go.id:2200/toc/tsri20/current	Taylor & Francis	4 issue(-s) per annual	Sustainability is defined in relation to the ability of infrastructure to address the needs of the present without sacrificing the ability of future generations to meet their needs. Resilience is considered in relation to both natural hazards (like earthquakes, tsunami, hurricanes, cyclones, tornado, flooding and drought) and anthropogenic hazards (like human errors and malevolent attacks.) Resilience is taken to depend both on the performance of the built and modified natural environment and on the contextual characteristics of social, economic and political institutions. Sustainability and resilience are considered both for physical and non-physical infrastructure.	The journal is indexed in Thomson Reuters Emerging Sources Citation Index, part of Web of Science.
4	Structure and Infrastructure Engineering Maintenance 	1744-8980	1573-2479	https://e-resources.perpusnas.go.id:2200/toc/nsie20/current	Taylor & Francis	12 issue(-s) per annual	Structure and Infrastructure Engineering - Maintenance, Management, Life-Cycle Design and Performance is an international Journal dedicated to recent advances in maintenance, management and life-cycle performance of a wide range of infrastructures, such as: buildings, bridges, dams, railways, underground constructions, offshore platforms, pipelines, naval vessels, ocean structures, nuclear power plants, airplanes and other types of structures including aerospace and automotive structures.	Structure & Infrastructure Engineering is abstracted in British Library Inside; Cambridge Scientific Abstracts; Compendex; Construction and Building Abstracts; Earthquake Engineering Abstracts; EBSCO Databases; Emerald International Civil Engineering Abstracts; INSPEC®; ISI Current Contents® - Engineering, Computing & Technology; ISI Science Citation Index Expanded™; New Jour, Scopus and Zetoc.

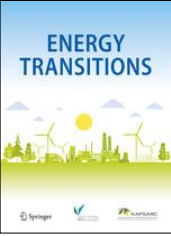

5	International Journal of Critical Infrastructure Protection 	1874-5482	http://e-resources.perpusnas.go.id/library.php?id=00037	Elsevier B.V.	4 issue(-s) per annual	<p>These critical infrastructure sectors include: information technology, telecommunications, energy, banking and finance, transportation systems, chemicals, critical manufacturing, agriculture and food, defense industrial base, public health and health care, national monuments and icons, drinking water and water treatment systems, commercial facilities, dams, emergency services, nuclear reactors, materials and waste, postal and shipping, and government facilities.</p> <p>Protecting and ensuring the continuity of operation of critical infrastructure assets are vital to national security, public health and safety, economic vitality, and societal wellbeing.</p>	ScienceDirect, DOAJ, Google Scholar, Scopus.
